CHAMPIONING GENDER EQUITY

ANNOUNCED AN INVESTMENT OF OVER \$2.4 MILLION FOR FIVE WOMEN'S ORGANISATIONS IN DAVENPORT

“Gender equality is not only an issue for women and girls. All of us benefit when women and girls have the same opportunities as men and boys—and it’s on all of us to make that a reality.” - The Rt. Hon. Justin Trudeau, Prime Minister of Canada

I’m proud to be the first female Member of Parliament for Davenport and to be part of the most proactive federal government in the areas of gender equity and women’s empowerment ever in our 152-year history.

Our federal government strongly believes that for Canada to succeed, every Canadian needs an equal opportunity to achieve their potential. We have put both resources and actions behind our ambitions and have made significant achievements over the last four years including the following:

- Formed the first gender-balanced cabinet ever
- Introduced proactive pay equity legislation at the federal level
- Invested over \$260 million for the Women’s

- Program supporting the sustainability of women’s organisations and equality-seeking groups
- Introduced a feminist foreign policy, making the involvement of women the priority in all of Canada’s activities around the world
- Launched a campaign to encourage more women and girls to pursue careers in STEM (science, technology, engineering, and math), and we’re supporting initiatives for women entrepreneurs, newcomer women, and women in the trades

Our government is removing the barriers women face so their ideas and innovations can continue to transform our economy and our society.

Here at home in Davenport, our government has made significant investments in women’s groups, including Sistering, the Dandelion Initiative, the South Asian Women’s Centre, and the Working Women Community Centre. These investments will increase the capacity to support women in our community from every part of our diverse riding.

How else can our federal government support gender equality?
